

## ARS 2022 – VIRTUAL SUMMER SCHOOL AUG. 29 - SEP. 12

Organized by Institute of Distance Learning and Department IV: Architecture and Technical Building Services of Berliner Hochschule für Technik

# CONCEPTS FOR CLIMATE RESILIENT AND CLIMATE NEUTRAL CITIES

Current trends in population growth and urbanization will lead to a significant need for all our cities to operate more sustainably in the near future.

The Summer School 2022 will bring together experts and representatives from different countries to discuss the topics of sustainability and their relevance to architectural design,

energy efficiency, renewable energy provision, circular economy, and the sustainable exploitation of natural resources.

We will provide you with key insights about how sustainable planning and design can help transform urban systems to create the low carbon cities of tomorrow.
